

Looking for serious power gain?

Enquire about INJEN TECHNOLOGY power components

DYNO TUNED • HIGH HORSEPOWER OUTPUT • EASE OF FITMENT

Air Intake Systems

- Dyno Tuned for increased power
- Made from 6061, T-6 aluminum
- Mandrel bent
- Ease of fitment

Super SES Performance Exhaust Systems

Super SES provides maximum horsepower and torque across the power band.

- Dyno tuned performance
- 100% 304 stainless steel
- CNC mandrel bent
- CNC machined flanges
- Robotic TIG welded

Jaw dropping HP gains designed to support an amazing 450hp!
Tuned intercooler piping and tig-welded brackets delivers superior performance, fit and finish. The INJEN INTERCOOLER package is a necessity for anyone looking for a front mount intercooler alternative and will compliment other optional Injen performance parts.

PSI PRODUCTS Exclusive Distributor of **BPM** **Injen** **01 DESIGN SYSTEMS**

Don't buy an exhaust system for your WRX until you read this...

Until 31st January 2005 FULL BPM Performance Exhaust (GT, TT, Twister Spec) will include a 3" high flow METAL catalytic converter for FREE!

\$350 IN VALUE

BPM

The BPM range of exhausts combines superior design that delivers a greater power gain over the competition. The BPM TwisterSpec range has also been proven in countless of podium victories by professional race teams. Further to this in the BPM GT [MC] and BPM Twister [MC] includes a true high flow cat to distance other competing exhausts even further.

METAL CAT

- 100% Stainless inside and out
- Uses a unique 200 cell p/inch high performance full metal catalyst
- Compact size for small and mid size cars and trucks
- Fully polished

High Performance Converter Flow Data

Data Measured on a Superflow SF-1200 flowbench with a maximum flowrate set at 589cfm. Measurements taken at an ambient temperature of 74 degrees F.

Metal CAT w/3" inlet and outlet 534.81 • Australia's most popular brand in Australia 312.17

Wide body catalytic converter does NOT equal high flow

Brand	Forward Flow CFM
Metal CAT w/3" inlet and outlet	534.81
Australia's most Popular Brand (Australia)	312.17

Want another reason for your vehicle to stand out from the crowd?

01 DESIGN SYSTEMS

PSI Products is proud to introduce the cutting edge, 01 Design Systems world patented performance wheel. The hand made wheel combines the strength of aluminum with light weight carbon fibre.

These wheels have been tested and developed over the last two years ensuring high performance capabilities. The groundbreaking wheel consists of a cast aluminum skeleton overlaid with a thick, high quality layer of 100% carbon fibre composite.

The 01 Design systems wheel is both VIA and JW1 approved.

Available in 17" and 18" multi fit 5 stud [5 x100] and [5x114] with a 45 offset.
Suits: **SUBARU WRX, NISSAN 200SX, HONDA PRELUDE, HONDA S2000, MAZDA RX-8** and various **TOYOTAS** including **SUPRAS**.
